Insurance Rules

These rules aim to develop Footbiking or Scootering as a fair and safe activity and sport.

1. Members ride scooters that are propelled by kicking or pushed/carried afoot. In kicking one foot pushes straight backwards on the ground like in running, while the other foot is resting on the scooter footboard. Scooters requiring a skating-like kick are not covered.
2. Scooter construction is free but it may not have a motor, mechanical gearing or sail, nor sharp or protruding parts causing danger to the rider or other riders.
3. Scooters must have Pneumatic tyres and effective brakes both front and rear, in order to covered. Scooters with Skateboard style wheels are not covered.
4. An Australian standard approved Bike style helmet but must be worn at all times while kicking. Knee and elbow pads, whilst recommended, are optional.
5. Failure to obey the last rule, or to obey all standard road rules, will void the insurance.
