Footbike Association Rules

These rules aim to develop Footbiking or Scootering as a fair and safe activity.

1. Members ride Human powered devices that have 2 wheels in-line, and are propelled by kicking, or are pushed/carried afoot. In kicking one foot pushes straight backwards on the ground like in running, while the other foot is resting on the footboard. Devices requiring a different motion are not Footbikes, and are therefore not approved.
2. Footbike construction is free but it may not have a motor, mechanical gearing or sail, nor sharp or protruding parts causing danger to the rider or other riders.
3. Footbikes must have at least one effective rim or disc brake, but 2 brakes are preferred.
4. An Australian standard approved Bike style helmet but must be worn at all times while kicking. Knee and elbow pads, whilst recommended, are optional.
